**Divisione ILVA**

Viale della Stazione 3  
I - 27020 - Parona (PV)

We hereby certify the conformity of the coating system

**KLIMA UNILACK**

composed by:

primer impregnating stain PN410 white and PN 4/colour (one hand)

+

topcoat PN 6B white and PN/6 colour (two hands)

(minimum wet film thickness 400 micron)

to the EN 927-2 performance specification and to the additional requirements of the

**CATAS QUALITY AWARD PLUS**

**COATING SYSTEM FOR EXTERIOR WOOD**

technical rules.

The use of the word PLUS indicates that the certified coating system satisfies the natural weathering test requirements for an exposure time twice as long as that required by EN 927-3 (2 years).

We are pleased to declare that the production of the above mentioned coating system is supervised by CATAS having obtained
